Traffic Booster Gold web site promotion service

This program is designed for web site owners who want maximum exposure for their site at an affordable price. SiteFactor provides the necessary upgrade to the existing site so that the code is search engine friendly, and optimized for top listings. When your site becomes a top-ranked listing in a search engine such as Google, (47% or more of all Internet searches) your site then becomes highly visible. As we continue to submit and promote your site for an entire three months, more visitors come and increasing web traffic drives more business.

Which Search Engines/Directories Does SiteFactor Submit to? Here are a few, and there are many more...

We will first optimize your site before any submissions occur. This important step ensures that you have the best ranking possible when the indexing of the search engine updates.

Announcing your web site on the Internet is not a one time deal, just like conventional advertising, it needs to be repeated. Search engines are databases online, they update, refresh and change content all the time.

SiteFactor studies search engine algorithms to ensure top listings. With **Traffic Booster Gold**, we submit to all major search engines plus secondary engines and major directories such as DMOZ and Yahoo.

Many of our clients get placed at #1 in search results from major search engines. When you are #1 people notice, and they are more likely to click onto your site rather than the competition.

The following table shows a list of the search engines and directories we submit to on a monthly basis:

July 2006 Search Engine and Directory List: (subject to change without notice)
 EVERYTHING IN BOLD IS A MAJOR SEARCH ENGINE

1. Abadoor	28. Crash Into	55. MetaSeeker	82. Search King

Traffic Booster Gold Includes:

- Full web site optimization
- Keyword Frequency Analysis
- Link Popularity Check
- One Ranking Report
- No Contract!

To get started we will need: Your web site FTP information
(Username and Password to go in and upgrade your code)

A list of keywords relative to finding your site up to twenty five). Please provide **the most important search term first**, this **must be at least two words** minimum, no more than a three word phrase. These two or three words will be what we optimize your site for top rankings and report results with. We do not offer multiple guaranteed top positions for several keywords, you need to select two or three search terms for guaranteed results, even though you will most likely get many top rankings for many keywords. If you do not know which keywords to use, we will do the research on your product or service and suggest them.

A one-time payment (up front) of \$399.00 in US Funds. We accept all major credit cards securely at our web site.

As soon as we receive your deposit, we will optimize and submit the site right away. Results may take 60-90 days to appear in search engines or as soon as two weeks. We submit your site for an entire three months for this program. This is a no contract service, we will provide a full ranking report at the end of the promotion.

Thank you for considering SiteFactor for all of your online promotion needs.
